## ABOUT ME

I have experience creating web application solutions as a **Web Developer**. I am quite knowledgeable about the entire Web development life cycle and am passionate about coming up with original solutions.

## Skills

- HTML5
- CSS
- Tailwind
- Bootstrap
- JavaScript
- GSAP / Locomotive.js
- React
- Node.js
- Express.js
- MongoDB
- Git / github

## Education

BCCA (Bachelor of Commerce and Computer Application) - 2020-23  
RTMNU.

MCA (Master of Computer Application)  
2023-current  
Radhikatai pandav College of Engineering,  
Nagpur Maharashtra

## PROJECTS SHOWCASE -

**Medxai** - <https://medxai.in/>

- During my internship, I contributed to the development of the MedXai website, focusing on front-end development. Utilizing React, Bootstrap, and CSS, I created a user-friendly interface, ensuring responsiveness across devices.

**Restin Mattress** - <https://restin.in/>

- At Restin Mattress, I contributed to front-end development using HTML, CSS, JavaScript, and Bootstrap. Responsibilities included implementing and styling website elements for enhanced user experience. This involved collaborating with the design team to ensure consistency and functionality across the site.

## Experience

### Internship

ICICEO Technology  
Onsite, Oct-Mar 2023-24

I completed a 6-month internship at, ICICEO Technology, located in Nagpur City, where I gained valuable knowledge.

Worked on 3 main websites with Bootstrap React JS, tailwind CSS and more. I was working on Mostly Frontend. for all 3 Projects Collaborating with a dedicated team, I navigated challenges, contributed meaningfully to projects, and refined my problem- solving skills.
