EDUCATION

BCCA (bachelor of commerce in computer application) – 7.5 CGPA   *Jun 2020-jul 2023*
MCA (Master of computer Application)   *Present (1st year)*

SKILLS

Languages: JavaScript, HTML, CSS

Libraries: React JS, Tailwind CSS, Bootstrap, Redux, GSAP, Locomotive JS

Frameworks: Next JS, Express JS, Node.js

Database: MongoDB

Version-control: Git & github

INTERNSHIP

ICICEO Technology, Nagpur   Aug 2023-May 2024

Worked on 3 main websites with Bootstrap React JS, tailwind CSS and more. I was working on Mostly Frontend. For all 3 Projects collaborating with a dedicated team, I navigated challenges, contributed meaningfully to projects, and refined my problem- solving skills

PROJECTS

Codepen Clone - https://codepen-clone-sigma-seven.vercel.app/
- Developed a CodePen clone using React and Tailwind CSS, featuring various React components such as Context API for state management. Matches against the positive and negative keywords and sentiments
- Technologies Used: React, Tailwind CSS, JavaScript, HTML, CSS

Image-Searching App - https://master--idyllic-cactus-0e63da.netlify.app/
- Developed an image searching app using React, Tailwind CSS, and GSAP for dynamic animations.
- Implemented advanced search functionality and a responsive, modern user interface.

Social App - https://github.com/Adityakamble8450/Social-Media-plateform-Nodejs.git
- Built a social networking application with functionalities such as authentication and authorization.
- Utilized Node.js, Express, and MongoDB to create a robust backend supporting user registration, login, and secure access control.

ACHIVEMENTS
- Successfully completed an internship at ICICEO **Technology**, where I gained hands-on experience in javaScript React Tailwind css and etc.
- Gained expertise in full-stack development by working on multiple projects involving front-end and Played a key role in code reviews, debugging, and optimizing applications to enhance functionality and performance
- Identified and resolved critical bugs in projects, ensuring smooth deployment and user satisfaction.
